Investigators Unable to Determine If Mechanical Failure a Factor in Tragic Accident on Silver Lake Boulevard

On June 17, Timothy Stirton, 68, was struck and killed while riding his Vespa-style scooter near the corner of Effie Street and Silver Lake Boulevard. According to police reports, Stirton, a well-known Silver Lake resident and environmentalist, was hit by a Ford Explorer heading south on Silver Lake Boulevard that was travelling at a high speed. At a recent Silver Lake Together community meeting, LAPD Northeast Division Senior Lead Officer Jesus Aispuro said that because the SUV was severely damaged in the collision, investigators at LAPD's Central Traffic Division are not able to determine if mechanical failure played a part in the accident. Unconfirmed sources speculate that driver error may have caused the fatal accident. The driver and passenger in the SUV were slightly injured.

Residents continue to express concerns about speeding and reckless driving on the highly-traveled roadway, Silver Lake Together has recommended that the LAPD's Central Traffic Division provide two motor officers to regularly patrol the area.
